# SECOA knows Lighting, Dimming, and Controls

**W**e bring decades of experience combined with a commitment to a job done right to your project. With a comprehensive line of products from the industry's leading manufacturers, SECOA is able to step in at any phase of a project; design, installation, integration and service.

Lighting, dimming and control equipment does not exist in a vacuum. As a single source stage equipment provider, SECOA is unequalled in our industry. You can depend on us to seamlessly manufacture, install and service stage equipment for your entire performance space.

**EXPERTISE:** SECOA's experience equates to an expertise that will pay off when it is time to develop or expand your facilities' performance lighting system. We can help you find the products to meet your needs, provide budget pricing, and be a resource throughout your project's life-cycle.

**INTEGRATION:** SECOA's unmatched breadth of experience in stage equipment guarantees that your lighting equipment will integrate seamlessly with all of the systems within your performance facility. Working with SECOA ensures you will get the most out of your lighting, dimming and control system.

**SERVICE:** SECOA's commitment to your project does not end at installation. We continue to provide expert and timely lighting system service to you throughout the life of your system.

# Lighting Excellence

**THEATRES AND PERFORMING ARTS CENTERS:** SECOA works with a wide variety of performance spaces. Whether your project is a stage at a primary school or a professional venue, SECOA helps you find state-of-the-art solutions to your lighting needs. With 80 years of experience and hundreds of installations across the country, no one can integrate your system with the rest of your theatre more completely than SECOA.

**WORSHIP FACILITIES:** Worship facilities across the country are discovering that lighting focuses attention on the message. SECOA works with you to create a system that is advanced, yet easy to use, and fits within your budget. Most importantly, SECOA's experts are always ready to help you get the most out of your investment for years to come.

**ARCHITECTURE:** Light your building dramatically. Technologies once reserved for performance spaces are being used in bold and inventive ways to light corporate architecture, public landmarks, and everything in between.

With decades of dramatic lighting experience, SECOA helps you bring color and dazzle to your architectural project.

**DIMMING EQUIPMENT:** Today's sophisticated dimming systems offer incredible features and capacities. SECOA helps you select the best system for your facility and budget. We work with the electrical contractors to make certain your system is installed correctly. Plus, we are available to service your dimming system to ensure it lasts for decades.

**CONTROL SYSTEMS:** Whether theatrical or architectural, exciting advances have been made in lighting control systems. SECOA helps you find the right lighting control console, house lighting control system, wireless data, and visualization programs. We also provide training and ongoing assistance so you can fully utilize your system over the years.

**LIGHTING INSTRUMENTS:** Smaller. Brighter. More Flexible. These words describe the lighting fixtures SECOA can supply for your venue. Our experts help you select the right combination of ellipsoidals, fresnels, cyc lights, moving lights and other types of instruments to light your facility.
